

Heating Oil Pre-Buy Plan

American Natural Satterlee Leasing offers a Pre-Buy Plan for Heating Oil

Every year in late spring and early summer, American Natural Satterlee Leasing offers all of our customers the opportunity to pre-purchase their winter heating fuel in the off season at a low, locked in price. Customers pay in the summer for their fuel when the pricing is at its' lowest and American Natural Satterlee Leasing delivers it through the winter.

We're Here to Help

We'll help you figure out approximately what your gallon usage will be, based on previous years. This is often the way to pay the lowest per gallon price.

Existing American Natural Satterlee Leasing customers can call or email to get a summary of their usage last year, to help determine what you might want to buy this year. If you would like to buffer yourself against a colder than average winter, consider purchasing an additional 100 to 150 gallons and adjust your payment accordingly.
